CAREER OBJECTIVE

UI/UX DESIGNER | FRONT-END & WORDPRESS DEVELOPER

I'm a passionate UI/UX Design Enthusiast and self-driven Front-End Developer with hands-on experience in crafting responsive and user-friendly websites. My focus is on turning design ideas into functional, accessible interfaces using HTML, CSS, JavaScript, and Tailwind CSS. I also work with WordPress, where I customize themes and build websites that are easy to manage and maintain. While I'm still growing and constantly learning, I value clean code, good design principles, and a smooth user experience above all. Currently, I'm focused on sharpening my skills further in design systems, accessibility, and modern front-end workflows.

SKILLS
